---

Summary

A Software Engineering student specializing in **Full-Stack Web Development**. Highly motivated with hands-on experience building responsive web applications using modern technologies, including **React.js** for the frontend and **Laravel (PHP)** for the backend. Experience in designing and teaching curricula has solidified a deep understanding of fundamental programming concepts. Seeking an opportunity to contribute technical skills and a passion for problem-solving to a dynamic and innovative development team.

Professional Experience

IT Teacher | Pondok Tahfizh Abu Dzar Plus *June 2024 – Present* | *Rumpin, Bogor*

- Developed and taught a foundational curriculum in web development and UI/UX design principles.
- Led hands-on projects, enabling students to build simple web applications from concept to completion.
- Mentored students on coding best practices, problem-solving techniques, and design principles.

IT Teacher | IDN Boarding School *July 2023 - June 2024* | *Pamijahan, Bogor*

- Designed and implemented a comprehensive web programming curriculum covering HTML, CSS, JavaScript, PHP, and Laravel.
- Instructed and guided students in using modern frameworks such as Laravel, Tailwind CSS, and Bootstrap.
- Provided constructive code reviews and feedback on student projects to improve code quality and conceptual understanding.

Education

IDN Polytechnic | Bachelor of Applied Science (D4) - Software Engineering *July 2022 - Present | Bogor*

- Focusing on web & mobile application development, data structures, and software architecture.
- Actively engaged in various academic projects and self-directed learning.

Technical Skills

- **Frontend:** JavaScript (ES6+), **React.js**, HTML5, CSS3, Tailwind CSS, Bootstrap
- **Backend:** PHP, **Laravel**
- **Database:** MySQL
- **Tools & Others:** Git, GitHub, VS Code, RESTful APIs
